ATS Resume Checker & Reviewer

Revolutionising Resume Optimisation with AI-Powered Insights

Navigating the ATS Challenge

Resume Formatting Errors

Complex layouts and unsupported fonts can make resumes unreadable for ATS, leading to automatic rejection.

Lack of Keyword Alignment

Resumes often miss critical keywords from job descriptions, preventing them from ranking high enough.

Inefficient Manual Review

Job seekers spend hours manually tailoring resumes, often without knowing what ATS truly prioritises.

Made with GAMMA

Smart Resume Optimisation

Bypass ATS Filters

We help your resume get past automated screening systems, increasing visibility to hiring managers.

Optimise for Relevancy

Improve your resume's content to directly match job description requirements, highlighting key skills.
